STATE CLEARINGHOUSE

NEWSLETTER

August 1 through 15, 2001

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents, federal notices and federal grant applications received by the Clearinghouse during the period **August 1 through 15, 2001**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse.html#clearinghouse

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Katie Shulte Joung and Karen Fowler (for projects in Northern California)
Scott Morgan and Brian Grattidge (for projects in Southern California)

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Kids, be a detective. Help your parents find leaks and drafts in windows.

CEQA & Planning Case Law

Summary of Recent CEQA & Planning Case Law

The following are summaries of recent court cases relating to the California Environmental Quality Act and/or land use planning law.

CEQA Cases

Case Name (No.):	<i>Napa Citizens for Honest Government v. Napa County Board of Supervisors</i> (A089095)
Court, Filing Date:	Cal. App. 1 st /1, 08/03/2001
Source:	2001 Daily Journal D.A.R. 8157
Summary of Ruling:	The County's 1998 Specific Plan failed to take into account the report of environmental effects. The county found that no feasible mitigation measures or alternatives had been proposed that would fully mitigate the adverse effects of the Specific Plan. In addition, the County concluded that a number of the measures approved or adopted in the previous 1986 Specific Plan were not feasible. Nonetheless, the County adopted the Updated Specific Plan, deleting the mitigation measures adopted in 1986 but found infeasible in 1998. As a result, the Final Supplemental Environmental Impact Report was inadequate and the Updated Specific Plan was invalid.

Please be advised the information contained in these summaries does not constitute legal advice, nor should the summaries be relied upon as a matter of law. Refer to the full text of the cases cited for the complete ruling and case facts.

Federal Notices

Intergovernmental Review Notices (August 1st – 15th, 2001)

The following are notices received by the State Clearinghouse from federal agencies in compliance with Executive Order 12372. If you would like more information about the subject matter, please contact the agency representative listed below.

Agency: Federal Energy Regulatory Commission

Contact: N/A

Telephone: N/A

E-mail: N/A

Address: 888 First Street, NE, Washington, DC 20426

Description: The Commission issued a three year preliminary permit to Symbiotics, LLC. to study the proposed San Antonio Dam Hydroelectric Project (No. 12006). The project would utilize the City and County of San Francisco's existing San Antonio Dam on the San Antonio Creek in Alameda County.

Comment By: N/A

Agency: Federal Energy Regulatory Commission

Contact: N/A

Telephone: N/A

E-mail: N/A

Address: 888 First Street, NE, Washington, DC 20426

Description: The Commission issued a three year preliminary permit to Symbiotics, LLC. to study the proposed Calaveras Dam Hydroelectric Project (No. 12012). The project would utilize the City and County of San Francisco's existing Calaveras Dam and Reservoir on the Calaveras Creek in Alameda County.

Comment By: N/A

Agency: Federal Energy Regulatory Commission

Agency: Federal Energy Regulatory Commission
Contact: James Hunter
Telephone: (202) 219-2839
E-mail: N/A
Address: 888 First Street, NE, Washington, DC 20426
Description: The Metropolitan Water District of Southern California filed a hydroelectric application for a Conduit Exemption for the OC-88 Small Conduit Hydroelectric Project (No. 12095) located in Orange County, California in the OC-88 Service Connection, which transfers water from the Allen-McCulloch Pipeline (AMP) to the South County Pipeline. The two primary sources of water for the AMP are the Colorado River Aqueduct and the California State Water Project.
Comment By: September 4, 2001

Agency: United States Forest Service
Contact: David Arrasmith, Planning Staff Officer
Telephone: N/A
E-mail: N/A
Address: 159 Lawrence Street, PO Box 11500 Quincy, CA 95971-6025
Description: The Forest Service has announced that it is in the process of preparing a supplemental environmental impact statement for the Herger-Feinstein Quincy Library Group Forest Recovery Act. The SEIS will analyze the environmental effects associated with the future potential maintenance activities (including herbicides) in defensible fuel profile zones. This SEIS shall be distributed in the same manner as the draft and final EIS. For those who wish to receive a copy of the SEIS send your name, address, and whether you prefer to receive a printed set or a compact disk, to Herger-Feinstein Quincy Group, Supplemental EIS Team, PO Box 11500, Quincy, CA 95971-6025.
Comment By: September 1, 2001

Agency: US Army Corps of Engineers
Contact: Clyde Davis
Telephone: (415) 977-8449
E-mail: Cdavis@spd.usace.army.mil
Address: Regulatory Branch, 333 Market Street, San Francisco, CA 94105-2197
Description: Mr. Les Shorter has applied for a ten-year Department of the Army permit to conduct maintenance dredging at Emery Cove Marina located in San Francisco Bay, Emeryville, Alameda County, California. The purpose is to return the area to its permitted depth in order to allow for safe navigation of recreational craft.
Comment By: August 11, 2001

Agency: U.S. Fish and Wildlife Service
Contact: Patricia Foulk
Telephone: (916) 414-6566
E-mail: N/A
Address: Sacramento Fish & Wildlife Office, 2800 Cottage Way, Room W-2605, Sacramento, CA 95825
Description: The U.S. Fish & Wildlife Service will propose critical habitat for 15 endangered and threatened species in California, one which is also found in Oregon, that are dependent on vernal pool wetlands for their survival, under a settlement between the Department of the Interior and Butte Environmental Council that was approved by the U.S. District Court in Sacramento on July 23, 2001.

Agency: United States Forest Service
Contact: Phebe Brown
Telephone: (530) 934-3316
E-mail: Pybrown@fs.fed.us
Address: James D. Fenwood, Forest Supervisor, Mendocino National Forest, 825 N. Humboldt Ave. Willows, CA 95988
Description: The Forest Service is holding an Open House meeting to discuss the requests for State Off-Highway Vehicle (OHV) funding for the 2001-2001 cooperative agreement cycle. Cooperative agreements assist the Mendocino National Forest in providing facilities and services to motorized vehicle visitors and other forest users while ensuring the protection of forest resources. For more information on the new cooperative agreement and grant regulations visit www.calohv.ca.gov. Requests for supplemental funding include Operations and Maintenance Requests, Equipment Purchase Requests, and Resource Management Requests. The Mendocino National Forest would appreciate receiving comments regarding these cooperative agreement requests.

Telephone: (559) 338-2251
E-mail: N/A
Address: Hume Lake Ranger Station, 35860 Kings Canyon Road, Dunlap, CA 93621
Description: An analysis on two livestock grazing allotments on Hume Lake Ranger District of Sequoia National Forest is beginning. The two allotments being considered are West Trimmer and Oat Mountain/LeFever. The need to analyze the effects of livestock grazing was required by the 1995 Rescission Act and Forest Service Manual direction. The purpose and need to analyze the Oat Mountain/LeFever and West Trimmer area is to improve and maintain forage conditions through better utilization of the annual grasses.

Agency: Federal Energy Regulatory Commission

Contact: John Smith

Telephone: (202) 219-2460

E-mail: John.smith@ferc.fed.us

Address: 888 First Street, N.E., Washington, DC 20426 (ref. Docket no. P-1862-088)

Description: In a letter from the Hydro West Group 1 (HWG) to the National Marine Fisheries Services, Ann Miles concluded that the installing and operating turbines as proposed by the City of Tacoma in their application to amend the Nisqually Hydroelectric Project (No. 1862-088) license is "not likely to adversely affect" Puget Sound Chinook salmon and their critical habitat. As a result, they do not believe that formal consultation regarding this species is required on Tacoma's proposal, and they are asking for the Services concurrence. HWG requested the Services to respond within 7days from the date of the letter.

Comment By: N/A

Agency: Federal Energy Regulatory Commission

Contact: John Smith

Telephone: (202) 219-2460

E-mail: John.smith@ferc.fed.us

Address: 888 First Street, N.E., Washington, DC 20426

Description: The Commission's issued an environmental assessment on the minimum flow turbine installation for the Nisqually Hydroelectric Project (No. 1862-088) as proposed by the City of Tacoma. The unit would be installed at the base of LaGrande dam adjacent to the existing river outlet located in Pierce, Thurston and Lewis Counties, Washington. The EA concluded Tacoma's proposal would not result in measurable adverse effects on water quality or aquatic resources in the bypassed reach given its recommended protection measures including temperature and dissolved oxygen levels monitoring, a flow continuation system, and a post-installation test of the flow continuation system.

Agency: Department of Fish and Game

Contact: Nancee Murray

Telephone: (916) 654-3818

E-mail: N/A

Address: Office of the General Council, California Department of Fish and Game, 1416 Ninth Street, 12th Floor, Sacramento, CA 95814

Description: On August 3, 2001, The Department of Fish and Game (DFG) has issued a motion to intervene for the Crocker Diversion Hydroelectric Project (FERC No. 12010-000) located in Merced County, California. The project's applicant, Symbiotics, LLC., submitted a hydroelectric application for a three year preliminary permit. According to DFG the Project has the potential to impact the fish and wildlife resources of California, and they are concerned that the Project could increase the water temperature of water discharged from the project, to the detriment of aquatic species. DFG is requesting to be allowed to present written and/or oral testimony regarding the effect of the Project on those water conditions and requirements, as well as certain conditions of operation which may be incorporated into the license in order to protect these resources.

1991031045	<p>2001 Clean Air Plan for Santa Barbara County Santa Barbara County Air Pollution Control District --Santa Barbara</p> <p>The 2001 Clean Air Plan (2001 Plan) is a comprehensive strategy to meet the requirements of both the federal Clean Air Act Amendments of 1990 and the California Clean Air Act of 1988. As required by the 1990 Federal Clean Air Act Amendments, the 2001 Plan is a revision of the 1998 Clean Air Plan (1998 CAP). The 2001 Plan also formally requests that USEPA re-designate Santa Barbara County as an attainment area for the federal 1-hour ozone standard. In addition, this 2001 Plan re-establishes on-road mobile source reactive organic gas and oxides of nitrogen emission budgets to address federal transportation conformity requirements. The 2001 Plan also addresses the California Clean Air Act requirements for the triennial update of the 1998 CAP that updated the 1994 CAP and the 1991 Air Quality Attainment Plan.</p>	EIR	09/17/2001

2001082010	Lafayette Heritage Foundation Senior Housing Lafayette, City of Lafayette--Contra Costa The applicant proposes to construct a 73-unit multi-family housing cooperative and assisted living facility to accommodate seniors. The application includes a request to amend the project site's land use designation in the Lafayette General Plan from Residential, 1 to 4 dwellings units per acre, to Residential, 11 to 17 dwelling units per acres. Rezoning of the project site is also proposed, from R-10, Single-Family Residential District, first to MRA, Multi-Family Residential District A, and subsequently from MRA to P-1 Planned Unit District, in order to impose a limitation of a slope easement located along the front portion of the project site along Deer Hill Road. Development of the project would require demolition of the existing on-site residences and accessory structures, and related grading and removal of trees. The project would entail construction of five separate buildings containing a total of up to 73 multi-family residential units, for a total of 85,481 gross square feet building area. Buildings would range in size from 8,890 to square feet to 26,103 square feet. The project site is approximately 5.08 acres. The proposed development would yield a floor area ratio of 0.39. The buildings would vary in height from just over 20 feet to a high of 35 feet, with buildings of 1 to 3 stories. The site would be graded to facilitate construction; with an estimated 30,000 cubic yards of cut and 11,000 cubic yards of fill material, off-haul of material will be required.	NOP	08/31/2001
2001081009	Conditional Use Permit #01-0032 Imperial County Planning Department Brawley--Imperial An unmanned cellular communication facility consisting of a 180 foot self supporting lattice tower with an enclosed compound approximately 100 x 100 foot in size.	Neg	08/31/2001
2001081010	Rezko Minor Residential Subdivision San Diego County, Department of Planning and Land Use --San Diego The project proposes the minor subdivision of 2.68 acres into 3 lots for single-family residential development. The lots will range in size from 19,396 square feet (gross). Access to the site is off San Pablo Drive. All lots will receive public water and sewer service from Vallecitos Water District. An existing biological open space easement over the southeastern portion of the parcel will remain and a fire buffer easement is proposed to protect the wetland and native vegetation on site.	Neg	09/04/2001
2001081011	Evangelical Christian Credit Union Office Park Brea, City of Brea--Orange ECCU has proposed the construction of an office park that would include the construction of three office buildings and a cafeteria/meeting facility on an approximately 17.42-acre building site. Two of the four buildings would be built immediately, with operations commencing in 2002. The first building will house only office and information systems space to support corporate financial services. The second, smaller building is to be used for ancillary functions such as cafeteria, staff meeting room for up to 350 people, meeting/training rooms,	Neg	08/31/2001

	warehouse/inventory, shipping and receiving, and an exercise/workout area. The third building will be constructed by mid-2003 and the fourth building will be constructed by mid-2004. These buildings would likely be leased until the growth of ECCU warrants their use. These four buildings are projected to accommodate ECCU's growth for the next 10-15 years.		
2001081013	Initial Study #01-0054 Solid Waste Facility Revision Imperial County --Imperial The proposed action is to convey title to the described parcel of land to the County of Imperial by converting the existing lease to a patent. Special pricing of \$10 per acre would apply to this conveyance because the land would continue to be government-controlled and used to serve the general public. The total cost to the County to acquire title to this site would be \$312. Although the leased area contains 40 acres, the County has surveyed and redefined the boundary of the acreage required for their purposes, thereby reducing the area to be conveyed from 40 acres to 31.25 acres. About 1.5 acres of the 31.25 acres is lightly vegetated creosote bush scrub; the remaining acreage is a heavily impacted landfill area virtually devoid of vegetation. The County plans to convert their operation to a solid waste transfer station where refuse is placed in containers and hauled to a regional landfill. No expansion of the landfill is contemplated.	Neg	08/31/2001
2001081014	Olivenhain Meadows II Encinitas, City of Encinitas--San Diego Tentative Map/Design Review Permit No. 01-054 to subdivide 7.18 acres into 10 half-acre minimum lots and construct 10 single-family residences.	Neg	08/31/2001

2001088026	Proposed Lease of Office Space Justice, Department of San Diego--San Diego Project is for lease of office space.	NOE	
2001088027	Transfer of Coverage to El Dorado County APN 25-552-09 (Phelan) Tahoe Conservancy --El Dorado Project consists of the sale and transfer of 255 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which an addition to a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE	
2001088028	Water Line Extension Fish & Game #3 Los Gatos--Santa Clara Extension of two water lines across the creek and installing a storm drain outlet with energy dissipater on the east side of the creek. Issuance of a Streambed Alteration Agreement Number R3-2001-0248 pursuant to Fish and Game Code Section 1603.	NOE	
2001088029	Bridge Abutment Repair Fish & Game #3 --Mendocino The project is the installation of 170 cubic yards of 1 ton RSP along the bank to protect the bridge abutment on Bridges Creek, Mendocino County, Highway 101 PM 97.47. The creek bank has progressively eroded and removed all rock that had used [sic] to protect the abutment. The rock will be placed using a backhoe, dumptruck and loader. Access to the site will come from the upstream side of the #1 abutment. The RSP will be placed at the toe of the slope. Approximately 15% of the material will be placed below the estimated ordinary high water elevation. The site currently has a 7 foot high log and debris jam that diverts flow toward the bridge contributing to the erosion problem. In order to protect the bridge some logs will be removed from this jam to allow the water course to flow away from the abutment. The National Marine Fisheries Service and Department of Fish and Game will determine which specific logs can be removed prior to the start of the project. Some vegetation will be removed. The construction will occur from mid-June to the end of October. Issuance of a Streambed Alteration Agreement Number 2000-0741 pursuant to Fish and Game Code Section 1601.	NOE	
2001088030	Russian River Tributary Culvert Installation Fish & Game #3 Ukiah--Mendocino Construction of a 28-foot wide access road over a seasonal creek, construction of sewer and water lines 20 to 30 feet parallel to the creek, and installation of a 74-foot long culvert in the streambed. The culvert will be placed at 25% below channel	NOE

2001082015	Kernen Construction - Morris Logging Contractors' Yard Humboldt County Blue Lake--Humboldt Development of a logging and construction company yard to be used for storage of equipment and other uses related to off site logging and construction activities. The project includes construction of an approximately 13,125 square foot metal building, approximately 28 feet in height to be used for equipment storage. The project will bring into compliance a contractors' yard (logging and construction) and office which was initiated prior to securing necessary permits. The +/- 5 acre parcel is developed with paved areas, an oil/water separator, setting basin, security fence and a commercial coach. A portion of the equipment storage building will contain a closed system equipment wash rack to eliminate dirt, diesel and oil from entering into storm water drainages. The project includes landscaping along Glendale Drive. Associated uses may include: intermittent log or chip storage, aggregate storage, and timber products processing such as chipping brush and firewood making. Community water and sewer services are proposed to serve the parcel. Approximately 60% of the parcel is developed with asphalt concrete paving, with the remainder gravel surface. The parcel was used for forest products processing in the past, however, it has been unused for the last few years.	Neg	09/03/2001

1994071020	Scripps Ranch Middle School San Diego Unified School District Acquisition of property and the construction and operation of a 1,800-student public middle school. Building coverage will range from 150,000 to 160,000 square feet and provide 65 classrooms within two-stories. Other facilities will include house support areas, building administration, physical education, library/media center, cafeteria/performance area, exploratory areas, circulation/mechanical/restrooms/canopies, hard courts, playfields, employee parking, and joint-use facilities. Two sites, both within Scripps Ranch Business Park, are under consideration. The preferred site consists of three lots (6, 7, and 8) totaling 19.3 acres while the alternative site consists of two lots (3 and 4) totaling 17.4 acres.	NOP	09/04/2001
1996121072	Saddleback Meadows Orange County --Orange The project proposes the phased development of 299-detached single-family residential units on a 222.2-acre site, located on the easterly side of El Toro Road (see Exhibits 1, 2 and 3). The gross residential density is 1.4 du/ac, with average lot sizes of 6,672 square feet and a minimum lot size of 5,000 square feet. Approximately 71 percent (158.6 acres) of the project site is proposed to remain in open space. In addition to the residential component, the project also proposes a wildlife movement corridor, regional riding/hiking trail connections, and biological resource enhancement. The proposed project will also comply with the urban stormwater runoff requirements of the California Regional Water Quality Control Board, and water quality infiltration basins have been added to the project features. Project implementation requires the approval of a Zone Change Foothill/Trabuco Special Plan Amendment), Area Plan and Vesting Tentative Tract Map. The proposed project represents a complete revision and redesign of previously approved and recorded Tract 10692. The original project was revised in consideration of changed circumstances and new information of environmental significance not previously considered in EIR 078. The current project design is a result of numerous meetings with interested citizens, resource agencies and adjacent property owners from 1995 to the present.	NOP	09/04/2001

1999042052	<p>Leona Quarry Project Oakland, City of Oakland--Alameda</p> <p>Redevelopment of an existing 128 acre quarry site into a new residential community with 564 units, 6,000 square feet of commercial, 2 acre park and residential trail system. Storm water retention slope restoration and revegetation will also be a part of the project. An amendment to the approved State Department of Mines and Geology Plan may also be required.</p>	NOP	09/04/2001
2001081023	<p>Pacific Design Center Red Building and Specific Plan Update West Hollywood, City of West Hollywood--Los Angeles</p> <p>The proposed project would involve the following:</p> <ol style="list-style-type: none"> 1. An amendment to the existing specific plan (Specific Plan 85-001) to modify the allowable uses on the entire property from those originally permitted under the Specific Plan to include additional new uses with certain restrictions. These new uses may include, but not be limited to, a banquet facility, outdoor dining, community centers, health/fitness facilities, offices, and studios. 2. A set of permit processing procedures for future activities on the property. 3. A development permit to build a new, mid-rise building of approximately 400,000 square feet. This new building is the third phase of the Pacific Design Center (PDC) as originally envisioned with a revised use as an office building in lieu of showroom/mart use. 	NOP	09/05/2001
2001081025	<p>Santa Maria High School #3 Santa Maria Joint Union High School District Santa Maria--Santa Barbara</p> <p>Acquisition of about 53.5 acres for the construction of a high school campus. The District would acquire this acreage from an existing 78 acre parcel, leaving about 24 acres between the school site and East Main Street under its current private ownership. The campus will include the following components: (1) approximate building coverage will be 200,000 square feet in multiple buildings; (2) parking for 500 student cars and 200 staff cars; (3) design enrollment will be 2000 students, with short term, temporary capacity for 2,379 students until a fourth high school is built; (4) the campus will be planned to accommodate a football stadium, sports fields, pool, and a one acre maintenance facility; (5) the campus will take access from Fremont Street, which will be extended south to East Main Street, and East Main Street would be improved to provide turn lanes at the Fremont intersection; and (6) the site will include a storm water detention basin at its north end, which would be designated to work in concert with the existing City basin in the park adjoining the school site.</p>	NOP	09/04/2001
2001081026	<p>General Plan Amendment No. 01-02 and Change of Zone No. 01-02 El Centro, City of El Centro--Imperial</p> <p>The project proposes the expansion of 9+ acres of designated general commercial property to 25+ acres through a general plan amendment from low density residential to general commercial usage. The proposal also includes a subsequent change of zone from RAP, proposed development of a commercial center (El Centro Town Center).</p>	NOP	09/04/2001

	parking lot area, pursuant to SCZ section 330-94(c). 7. A Special Review of Parking (PRS) to allow shared parking between the proposed five parcels.		
2001082017	Highway 29 Specific Plan St Helena, City of St. Helena--Napa Approval of the proposed Highway 29 Specific Plan, which would provide for Service Commercial, Light Industrial, High Density Residential and Open Space uses in the 110-acre project area consistent with the St. Helena General Plan. The Specific Plan also identifies needed roadway, sewer, water, and drainage improvements in the Specific Plan area as well as proposed financing for proposed infrastructure improvements.	NOP	09/04/2001
2001082025	Fremont Mews/CADA Site 13 Redevelopment Project Capitol Area Development Authority Sacramento--Sacramento The Proposed Project consists of 91 residential units, 17,800 sf of commercial space, and community garden. The 1997 Capitol Area Plan identifies the three-block area between 12th and 15th Streets and P and Q Street as an opportunity to create a strong residential area connecting Fremont Park with the neighborhood retail center at 14th and O Streets, and to the light rail line along 12th Street. The residences were proposed to be developed at a density of less than 35 units per acre along O and P Streets and along P and Q Streets and the alley. The alley would link the entire area at mid-block and would provide a quiet pedestrian connection to Fremont Park. Under the 1997 Capitol Area Plan, this area was planned for 146 residential units. It should be noted that under the 1997 Capitol Area Plan EIR, the three-block area (Block 281, 284 and 286) was identified for up to 200 units. Currently, 64 single family homes exist on Blocks 281 and 284. With the addition of 91 units under the Proposed Project, the total number of units within the three-block area would be 155, which is 45 less than the previously-approved 200 units.	NOP	09/05/2001
2001082030	El Dorado County General Plan El Dorado County Planning Department Placerville--El Dorado The crux of the proposed General Plan is the Land Use map and associated land use designations. Policies are included in the proposed Land Use Element to define the land use designations depicted on the Land Use map. The Land Use map and policies together identify Community Regions, Rural Centers, and Rural Regions. The following land use designations are used: Multi-Family Residential (MFR), High-Density Residential (RR), Rural Residential Low Density (RRL), Industrial (I), Open Space (OS), Public Facilities (PF), Adopted Plan (AP), and Tourist Recreational (TR). In addition, six overlay designations are included: Agricultural Districts (A), Platted Lands (PL), Ecological Preserves (EP), Non-Jurisdictional Lands (NJ), and Planned Community (PC). In addition to the Land Use Element, the proposed General Plan includes the following elements: Circulation (including the five Measure Y policies adopted by the voters in 1998), Housing, Public Services and Utilities, Public Health and Safety, Conservation and Open Space, Agriculture and Forestry, Parks and Recreation, Economic Development, and the Tahoe Basin. It is anticipated that implementing policies	NOP	09/04/2001

	will be developed by the County for each of the Elements based on planning considerations, environmental concerns, and public input obtained during the public review process for the environmental document.		
1999082008	Revision of Syar Phase 5 Terrace Pit (File PLP 99-0047) Sonoma County Permit and Resource Management Department Healdsburg--Sonoma Request to amend the previously approved Syar Industries 27.6 acre Phase 5 Terrace Pit (PLP 99-0047) aggregate mining and reclamation plan, by relocating 4.12 acres of the mining area from the West side to the north-east side of the approved project area, and rezoning the 4.12 acre area to include the MR (Mineral Resource) combining district.	Neg	09/04/2001
2001069028	Conditional Use Permit P80-83 (Major Revision) Santee, City of Santee--San Diego The project would involve demolishing the existing camping spaces, fully re-grading the site, constructing new driveways, camping spaces, bicycle and pedestrian paths, and fully landscaping the site. Ninety percent of the existing trees would be maintained and incorporated into the design. In addition to the 100 RV camping spaces, the project also includes the following features: (1) The existing restroom will be renovated and a new restroom in the adjacent camping area will be constructed. (2) A new pool will be added to the existing pool/laundry building north of Lake 7. (3) A caretaker's on-site residence will be constructed just north of Lake 7, to the south of the proposed campsite renovation. (4) A new campers-only access will be constructed from Fanita Parkway between the existing campers' access and Ganley Road. This access point will be for use of existing campground users. Only initial check-in of campers would still occur via the Carlton Oaks Boulevard main access. The access gate will be located approximately 300 feet into the site to ensure that vehicles waiting to enter the site don't stack up on Fanita Parkway.	Neg	09/04/2001
2001081028	CUP 01-078 Department of Regional Planning Los Angeles, City of--Los Angeles The proposed project is a Conditional Use Permit for the installation and operation of antennae and associated equipment cabinets for a wireless telecommunications facility. A total of 12 antennae will be mounted atop a 54-foot monopole disguised to appear as a palm tree. In addition, six cabinets are proposed for this site. The monopole and associated cabinets will be installed on the ground.	Neg	09/04/2001

2001081030	<p>Bear Valley Community School San Bernardino County, Superintendent of Schools Big Bear Lake--San Bernardino</p> <p>The San Bernardino County Office of Education (SBCOE) proposes to construct the Bear Valley Community School, an alternative junior high/high school ("Project"). The Project is proposed to be two classrooms, totaling approximately 3,000 square feet. The Project contemplates construction of classroom facilities organized in single-story buildings with covered walkways and fencing. Facilities to be constructed include classrooms for up to 54 students in grades seven through twelve; parking facilities for visitors and staff; parent loading/drop-off area and turf playfields. Lighting includes low level security lighting, signage lighting, and illumination of the surface parking lot and associated pedestrian areas.</p>	Neg	09/04/2001
2001081031	<p>Conditional Use Permit Application No. 01010-Midvalley Agricultural Services Merced County Livingston--Merced</p> <p>The application proposes to legalize an agricultural chemical service and sales facility in operation without a County land use permit for over fourteen years. Mid Valley has owned and operated the facility since November of 2000. The company has a store, office, shop, warehouse, chemical storage tanks, propane tanks and fueling station at the Livingston location. The warehouse and storage tanks contain various toxic materials including liquid and dry pesticides, herbicides and fertilizers. Only one material at the facility is deadly to humans in small doses, methyl-bromide, a gas which is kept in liquid form and contains tear gas as a release indicator. The company owns four trucks to deliver the materials to growers and portable dispensing equipment including wagons and trailers used to spread the materials in the fields. Large trucks fill the tanks with liquid chemicals and unload dry chemicals on pallets using the company forklift. Mid Valley employs two forklift operators and three drivers. A spill kit containing first aid supplies and clean up materials is kept in the warehouse. Mid Valley contracts with Wright Environmental (Exhibit A), a company that specializes in urgent response for chemical accidents, to provide emergency response in the event of a spill or leak. Chemical transports are covered by CHEMTREC - the Chemical Transportation Emergency Center (Exhibit B), an emergency response service provided by the Chemical Manufacturers Association.</p>	Neg	09/04/2001

2001088067	Tinemaha Reservoir Tailrace Repair, Inyo County, California Los Angeles City Department Water and Power --Inyo The repairs are required to protect the integrity of the tailrace and dam of Tinemaha Reservoir. Existing cracked shotcrete and rip-rap will be removed and replaced with rip-rap and reinforced shotcrete. The outflow from the Reservoir will be reduced to approximately 40-cfs from August 18, 2001 through August 24, 2001, so this work can be accomplished in the dry season. Flows will be diverted to the center of the tailrace by the use of concrete barriers and sandbags. Sediment screens will be used to minimize sediment from entering the water. This work is being coordinated with a scheduled Los Angeles Aqueduct shutdown.	NOE

	project. All waste will be processed through an aeration process then will be discharged through the Goshen Community Services District sewer system. No community water is immediately available. On-site well(s) will be constructed instead, to avoid the significant cost of extending oversized lines for 1/2 mile to the site. Included in the project is the provision that WPMP will provide replacement foraging habitat for San Joaquin kit fox forage acreage disturbed in accordance with U.S. Fish and Wildlife guidelines, and will contract with a biologist to do a "walk through" of the site conduction in a pre-construction/pre-activity survey between 14 and 30 days prior to the start of construction to assure that no endangered species have moved in since the last survey was completed.

1992052017	General Plan Master EIR Update Modesto, City of Modesto--Stanislaus The fundamental nature of the Modesto General Plan (adopted 8/15/95) will not change, although minor changes to the Circulation Element are proposed. The original Master EIR will be streamlined, a new Initial Study added, and various mitigation measures will be deleted, as they are redundant with General Plan policies.	NOP	09/05/2001
2001081038	Tentative Tract Map 52717; Amendment to Specific Plan No. 4 (Chapter 18.504 of the San Dimas Municipal Code) San Dimas, City of San Dimas--Los Angeles The proposed project consists of a 19-unit subdivision planned on 18-acres located within an existing specific plan area (specific Plan No. 4). Three distinct residential product types are proposed, with floor plans ranging in size from 4,440 to a maximum of 5,350 square feet in size. Of the 22 lots that will comprise the tract map, 19 are for residential use and the remaining 3 lots are open space parcels. Fourteen of the residential lots are of sufficient size to accommodate equestrian uses consistent with Chapter 18.112 of the City Zoning Code. In addition to a tentative tract map, an amendment to the City's Municipal Code relative to development standards applicable to this portion of Specific Plan Area No. 4 is also proposed. Local access for the project will be taken off Gainsborough road with internal circulation provided by a double loaded road that terminates in a cul-de-sac. A second means of access to the property for emergency ingress and egress only is available from an existing road within an easement located to the northeast of the proposed cul-de-sac. In order to maintain a rural character, the proposed street is 28 feet wide from curb to curb with a 38 foot right of way. This cross section provides two 11 foot travel lanes and one eight foot parking lane (parking will occur only on one side of the street). The project also proposes a reduced street lighting standard to maintain a rural theme.	NOP	09/05/2001

	lead agency for NEPA documentation and the SCVWD will be the lead agency for CEQA documentation. The project is sponsored jointly by the SCVWD, the Natural Resource Conservation Service (NRCS, formerly the Soil Conservation Service), and the Loma Prieta Resource Conservation District (LPRCD). The SEIS/SEIR will supplement the original Llagas Creek Watershed Final EIS/EIR that was released in 1982 by the NRCS and the SCVWD to examine the potential environmental impacts of the original Llagas Creek Flood Control Project. The original Llagas Creek Project was authorized in 1969 by the United States Department of Agriculture (USDA) pursuant to the Watershed Protection and Flood Prevention Act (P.L. 83-566). To date, the NRCS has completed about half of the authorized project on the lower reaches of Llagas Creek. Congress, in the House Report to the 1998 Energy and Water Development Appropriations Act (HR 105-109, July 1997), urged the Corps to develop plans and specifications of the authorized Llagas Creek project, in anticipation of the Corps assuming the construction of the remaining project elements. The Water Resources and Development Act (WRDA) of 1999 authorized the Corps to complete the remaining upper reaches of the project "substantially in accordance with the NRCS watershed plan for the Llagas Creek."		
1998121096	Rancho Santalina San Marcos, City of San Marcos--San Diego The project includes two projects, one with two alternatives. Project 1 occupies approximately 62 acres and consists of two alternatives, one for single-family homes only and one for single family homes and a school site. Project 2 consists on the development of an 88 unit multi-family project on approximately 5 acres. The project will include a General Plan Amendment, Rezone, Tentative Subdivision Map, Specific Plan, Conditional Use Permit, Multi-Family Site Development Plan Review and Grading Variance. 2001072034	Pond and Drainage Maintenance Projects located within the Department of Water Resources Water Resources, Department of --Alameda, Contra Costa, San Joaquin Sediment and vegetation removal is the primary maintenance activity necessary to maintain the integrity of the State Water Project. Maintenance activities involve the removal of accumulated sediment and emergent wetland vegetation from ponds and drainage channels located upstream and downstream of culverts and from seepage ponds. For projects located at culverts, sediment and vegetation will be removed from the apron and one side of the channel for a distance up to 50 feet. For projects located at seepage ponds, sediment and vegetation will be removed from only one side of the pond for each maintenance event. Spoils will be placed in a non-environmentally sensitive area along the California Aqueduct and near the Operations and Maintenance building. If all of the maintenance projects are completed, approximately 4 acres of wetland and three and one-half acres of upland habitat would be temporarily disturbed. Since these maintenance projects will occur over several years, it is anticipated that no more than one-third of an acre of wetlands would be cleared in any one year.	NOD	
2001088081	City of Ventura Test Wells Ventura, City of Ventura--Ventura The Operator proposes to alter the streambed of the Ventura River by installing and operating 5 test wells (Nos. 5, 9, and 10 are within the river bottom and Nos. 7 and 11 are located on the banks within the riparian woodland).	NOE	
2001088082	Replace Roof Building 196 - Napa State Hospital Mental Health, Department of Napa--Napa The proposed project consists of replacement of the roof of Building 196 at Napa State Hospital. The project is needed because the roof is leaking and causing extensive interior damage to the building. Building 196 was originally constructed in 1949 and has the original flat clay tile roof over Unit T-5/T-6, Unit T-7/T-8, and the K-2 Kitchen. The project would entirely remove and replace the existing roof for Building 196, which includes Unit T-5/T-6, Unit T-7/T-8, Unit T-9, and the K-2 Kitchen. Unit T-5/T-6, Unit T-7/T-8, Unit T-9 are covered with a flat clay tile roof, which has an area of 53,530 square feet. The project would also replace the roofing materials on the K-2 Kitchen, which has an 3,257 square-foot roof constructed of built-up roof felts and asphalt. The project would replace the flat clay tile roof with new clay tiles that will match the size and color of the original tiles as much as possible. The project does not involve expansion of existing use. Due to the age of Building 196, the State Historic Preservation Officer (SHPO) was consulted pursuant to Section 5024.5 of the Public Resources Code. Based on the site visit and consultation, the SHPO has provided the Lead Agency with written concurrence that the project would not represent a significant effect on historical resources. The Lead Agency shall ensure conformance to design	NOE

1998061084	Agricultural Issues General Plan Amendment and Implementing Rezones San Diego County Alpine, Bonsall, Dehesa, Harbison Canyon, Jamul, Dulzura, ...--San Diego The Superior Court of San Diego County issued a judgement as a result of a lawsuit brought against the County (Save Our Forest and Ranchlands v. County of San Diego) that successfully challenged the adoption of GPA 94-01 that would have set a minimum parcel size of eight acres for the (20) designated lands. The court directed the County to bring the Regional Land Use, Open Space, and Conservation elements of the General Plan into conformance with State law and to prepare appropriate environmental documentation pursuant to the Government Code Section 65759. A Draft Environmental Impact Report (DEIR) was circulated for a 45-day public review period on February 18, 1999. Revisions to that DEIR were made to the following resource areas: noise, transportation and circulation, and the water quality section of water resources. This recirculated DEIR was circulated for a 45-day public review period on October 21, 1999. Subsequent court action in a Supplemental Writ of Mandate (Superior Court County of San Diego case #676630) directed that revisions to the DEIR be completed for a biological, zoological, botanical and hydrological resources. The revisions to the DEIR have been completed for these resources. The revisions to the DEIR were circulated for a 45-day public review period beginning on August 9, 2001. No changes to the proposed project have resulted from these actions.	EIR	09/24/2001

2001032064	Fairfield Comprehensive Amendments to General Plan & Related Documents Fairfield, City of Fairfield--Solano Proposed amendments to update the general plan, general plan diagram; corresponding revisions to the zoning ordinance and zoning maps; corresponding revisions to the Scenic Vistas and Roadways Plan, Open Space Acquisition and Management Plan and Open Space Approval Guidelines; revisions to the Comprehensive Annexation Plan.	EIR	09/24/2001
2000071130	Tranquillon Ridge Santa Barbara County --Santa Barbara Torch Operating Company is requesting a modification of their FDP Point Pedernales Project (Final Development Plan) and DPP Point Pedernales Project (Development and Production Plan) to include development (drilling and production operations) of a California State Lease (Tranquillon Ridge Oil Field) within the existing FDP and DPP.	NOP	09/10/2001
2001081049	Whittier Boulevard Redevelopment Plan Whittier, City of Whittier--Los Angeles The EIR will identify the public improvements that are contemplated as part of the proposed project's implementation. In addition, the EIR will indicate the development possible under the implementation of the proposed redevelopment project pursuant to the City of Whittier General Plan. The EIR's analysis will indicate those areas where new development is most likely, the potential use and intensity of this future development, and the physical impacts likely to result. In this way, the EIR will serve as a "program" EIR that will facilitate the environmental review of future development likely to occur as part of the redevelopment project's implementation.	NOP	09/10/2001
2001081052	Rancho Capistrano Master Plan/J. Serra H.S. San Juan Capistrano, City of San Juan Capistrano--Orange The following are the key project objectives: . Construct a state-of-the-art private high school with complete educational, athletic, and performing arts facilities. . Expand the existing church facilities to include a new sanctuary, spiritual growth center, pre-school/daycare facility, and fellowship hall. . Create meditation gardens and a cross monument. . Expand the existing conference center facilities to provide more bedrooms and increased dining and meeting capacity.	NOP	09/10/2001

2001082046	<p>Home Depot Special Use Permit and Design Permit (01-15) Watsonville, City of Watsonville--Santa Cruz</p> <p>The project consists of a 115,058 square foot Home Depot home improvement store, with a 3,064 square foot mezzanine and 24,310 square foot garden center to be built on a 14.12 acre site consisting of four parcels including: APN-015-181-01,02,03, & 04. The site will be accessed from entrances located along both roadways and access a parking area in front of the store with 589 parking spaces. A new, signalized intersection is proposed on Green Valley Road at the project driveway across from the church. In order to accommodate the store a significant amount of grading is required including the cut and export of approximately 214,000 cubic yards of material, which is the difference between the 235,000 cubic yards of cut and 21,000 cubic yards of fill required to accommodate the project. Proposed cuts range in depth from 15 to 25 feet, and the fill will be established behind retaining walls along the northern boundary of the project which range in height from 6 to 20 feet in height. The site is predominantly designated as General Commercial on the Land Use Diagram from the Watsonville 2005: General Plan. The predominant zoning designation is CT (Thoroughfare Commercial). A small portion of the site on the eastern boundary is designated as Environmental Management on the Land Use Diagram and EM-OS on the zoning map.</p>	NOP	09/10/2001

	executing a Lake and Streambed Alteration Agreement Number R3-2001-0250 pursuant to section 1601 of the Fish and Game Code to the project operator, Larry Hampson/Monterey Peninsula Water Management District.		
2001089030	Rezoning/Preliminary Development Plan, Tentative Map and Use Permit/Precise Development Plan for Condiotti Enterprises (Storm Drain Outfall Project) Windsor, City of Windsor--Sonoma Two storm drain outfalls to Windsor Creek will be constructed in conjunction with Vintage Greens Phase 2 residential subdivision. Both outfalls are 48 inch diameter pipes. UngROUTED rip-rap will be placed around the pipe outlets to minimize erosion and dissipate velocity of entering flows. Native tree species will be planted to mitigate for any trees that are removed in the project area. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-2001-0532 pursuant to section 1603 of the Fish and Game Code to the project operator, Phil Trowbridge/Demada, LLC.	NOD	
2001088102	Installation of Boulder Weirs Project Fish & Game #3 San Luis Obispo--San Luis Obispo The proposed project would install three boulder weirs through the project site to create step pools to facilitate steelhead migration through the site. The boulder weirs would be designed in accordance with specifications from the "California Salmonid Stream Habitat Restoration Manual" and meet National Marine Fisheries Service criteria for fish passage projects. The site would be dewatered during construction, and approximately two cubic yards of gravel would be removed from the streambed at each weir location (total of six cubic yards removed) to provide a base for setting the boulders. The gravel would be removed using a backhoe operated from the access road. The boulders would be anchored to the edge of the concrete access road using 3/4-inch steel cable glued to the boulders and bank. Approximately 1.5 cubic yards of gravel or small rock would be placed along the edge of the road to prevent undercutting. Issuance of a Streambed Alteration Agreement Number R3-2001-0434 pursuant to Fish and Game Code Section 1603.	NOE	
2001088103	Replacement of Existing Storm Drain Outfall Project Fish & Game #3 Santa Rosa--Sonoma This project is located on Austin Creek approximately 150 feet upstream from the Mission Boulevard Bridge in the City of Santa Rosa, in Sonoma County and consists of the replacement of an existing undersized 30-inch storm drain outfall pipe with a 48-inch pipe. The drainage outlet is to be constructed in conjunction with the Prospect Place Apartments project located on Prospect Avenue, approximately 700 feet south of the outfall. A trench will be dug from the top of bank with a backhoe in order to remove the existing pipe. The existing rock rip-rap will be used to place around the new outfall pipe to minimize erosion and dissipate the velocity of flow. Issuance of a Streambed Alteration Agreement Number R3-2001-0559 pursuant to Fish and Game Code Section 1603.	NOE

2001081063	Zoning Ordinance Update 2000 California City California City--Kern The Zoning Ordinance Update 2000 also known as Title 9, Chapter 2 of the Municipal Code has been reviewed and revised by the Planning Commission and is now being presented to the public for their review and comments. The Zoning Ordinance will be forwarded to the City Council for approval and adoption. The changes in the ordinance were minor and corrected inaccuracies, provided information that was inadvertently omitted in 1994 and now brings the Zoning Ordinance in compliance with the General Plan and the General Plan Map.	Neg	09/11/2001
2001081066	Happy Isles Gauging Station Bridge Removal Project Yountville, City of --Mariposa The proposed action is to remove the bridge and the west abutment. Once the west abutment has been removed, there will be a cavity remaining. This cavity will be contoured to the existing grade of the riverbank with minimal rip rap placed in the void, mimicking the surrounding topography. The east abutment is attached to a large boulder and will be left in place. This abutment would continue to protect the Happy Isles Gauging Station located immediately downstream from the bridge and would provide a viewing platform for visitors. All concrete and steel would be removed from the area and properly disposed of. It is anticipated that the project would occur in October, November, and possibly the first weeks of December 2001 to take advantage of the low flows in the Merced River. The project is expected to be completed within 45 days.	Neg	09/11/2001
2001082048	Napa Park-and-Ride Lot Napa, City of Napa--Napa Create a bus transfer center and park and ride lot near the juncture of SR-29 and Trancas/Redwood. Maximum eighty spaces and six bus transfer bays.	Neg	09/11/2001

2001071019	Casa Romantica Cultural Center CUP-00-214/CHP-00-215 San Clemente, City of San Clemente--Orange Development of a cultural center in the Casa Romantica building listed in the National Register of Historic Places.	NOD	
2001089031	Stream Crossings and Bank Protection for Timber Harvest Fish & Game #2 --Calaveras The California Department of Fish and Game is executing Lake or Streambed Alteration Agreement number R2-2001-279 pursuant to section 1603 of the Fish and Game Code to the project applicant, Thomas Tinsley representing Sierra Pacific Industries. Install two culverts (one replacement), replace rip-rap around an existing culvert, and use waterhole behind existing rock dam.	NOD	
2001089032	Stream Crossings and Bank Stabilization for Timber Harvest Fish & Game #2 --Plumas The California Department of Fish and Game is executing Lake or Streambed Alteration Agreement number R2-2001-98 pursuant to section 1603 of the Fish and Game Code to the project applicant, Joe D. Smailes. Install seven permanent stream crossings and one bank stabilization for Timber Harvest activities.	NOD	
2001089033	Lake Elsinore Tract 28748 Fish & Game Eastern Sierra-Inland Deserts Region Lake Elsinore--Riverside CDFG is executing a Lake and Streambed Alteration Agreement (SAA #6-026-00) pursuant to Section 1603 of the Fish and Game Code to the project applicant, Olympic Realty Advisors. The applicant proposes to construct a storm drain, line A-1, stage 1 outlet structure. This outlet is an interim improvement and will be removed by the Riverside County Flood Control District in conjunction with stage 2 improvements. The outlet structure will consist of a concrete headwall & rip rap energy dissipater pad, and an earthen ramp to provide access to the outlet area. The project is located in the City of Lake Elsinore in Riverside County.	NOD

2001088192	Removal Action Workplan for Orchard Supply Company Site Department of Toxic Substances Control Sacramento--Sacramento The proposed project is approval of a Removal Action Workplan (RAW) which is to address the contaminants detected in surface and near surface soil. Metals (lead and arsenic) and pesticides (Chloradane, dichlorodiphenyltrichloroethane (DDT) and dieldrin) were detected in surface and near surface soil above the industrial cleanup levels established for the Site. The removal action consists of excavating approximately 1,261 cubic yards of contaminated soil above the proposed industrial cleanup levels. Demolition activities will include removal of asphalt and concrete at the site from areas proposed for excavation and removal of shed located along the north side of the main building. The Site will be secured during the implementation of the removal action. Permanent and temporary fencing will be used to prevent unauthorized entry to the Site. During the excavation of contaminated soil, a polyethylene plastic sheeting will be fastened on the fence along the alley (next to light rail tracks) to prevent airborne dust from reaching the residential area to the north.	NOE	
2001088193	HHWVAR010801 Department of Toxic Substances Control Los Angeles, City of-- Variance to the City of Los Angeles from hazardous waste facility permit requirements. The variance is limited to the four-day household hazardous waste (HHW) collection events listed above. The collections provide appropriate means of disposing of household and conditionally exempt small quantity generator (CESQG) hazardous waste. The variance is based on the evidence that: 1. The	NOE

The land is intended for recreation purposes. The trail will extend from the east end of Riverfront Street (Beckwith Avenue) to the existing parking lot in the Federal park at the east end of the City.</p>	Neg	09/13/2001
2001082052	<p>Willow Slough Bypass Levee Reconstruction Water Resources, Department of Davis--Yolo</p> <p>The Willow Slough Bypass levees require repair to return them to design specifications. The project involves two components: raising the levee in areas with deficient freeboard and repairing levee sections that have undergone some type of distress.</p>	Neg	09/12/2001
2001082053	<p>Wetland Restoration and Interpretive Trail Parks and Recreation, Department of Watsonville--Santa Cruz</p> <p>Repair headcut in rear dune of preserve. Excavate about 100 cubic yards of sediment from wetland to mitigate sediment deposit from blowout. Construct interpretive trail on dune crest and observation deck.</p>	Neg	09/12/2001
2001082056	<p>Richmond Park Subdivision Chico, City of Chico--Butte</p> <p>Proposed subdivision to create 110 lots for single family residential development; and annexation.</p>	Neg	09/12/2001
1980071615	<p>TM 5093TE, P96 , Log No. 96-08-007 San Diego County, Department of Planning and Land Use --San Diego</p> <p>This Specific Plan Amendment proposes deleting the seven Country Estate lots in the northwest portion and relocating two of the lots to the project area. The Equestrian Center designation will be changed to Community Recreation (CR) to be developed as a passive park or community/recreation facility. The CR area will be reduced from 24 acres to 18 acres. The Olivenhain Water District ROW which the District acquired in fee title, is included in the overall CR designation but is identified as "Not a Part" on the Tentative Map Resulting in 10.61 net acres for Lot 3 (park site). The Olivenhain Water District ROW is a part of the specific Plan. Lot</p>	NOD

No. 96-08-023A, El Apajo Estates San Diego County Department of Planning and Land Use --San Diego The project is the subdivision of 50.34 acres into 14 single-family estate residential lots and one open space lot. The average single-family residential lot will be 1.6 acres in size. The open space lot will be 27.29 acres and will have an easement placed over the area for the permanent preservation of biological resources. The project will implement a portion of the San Dieguito River Park Concept Plan by including an equestrian/pedestrian trail along the western edge of the development area. The project will also include flood control work in proximity to a portion of the San Dieguito River, where the river currently floods onsite. The project will import approximately 73,000 cubic yards of soil to create a flood free pad for the future homes. The project will have access off of a private street from Via de Santa Fe. The project will receive public water services from the Olivehain Municipal Water	NOD

	District and sewer service from the Whispering Palms Community Service District. The project is within the El Apajo Specific Plan Area.		
2001089036	Haul Crossing of Murrieta Creek for the Removal of Excess Fill Dirt at the Santa Rosa Reclaimed Water Storage Site Rancho California Water District Murrieta, Temecula--Riverside The proposed project consists of the construction of a temporary haul road crossing of Murrieta Creek for the removal of excess fill material at the Rancho California Water District's Santa Rosa Reclaimed Water Storage site. The construction will entail the installation of low-flow culverts with the placement of fill dirt over the culverts for the temporary haul road. Upon completion of the fill removal, the haul road and culverts will be removed and the crossing restored to its pre-existing condition. It is anticipated that this temporary crossing will be in place between four (4) to six (6) months.	NOD	
2001089038	Fence Monte Vista Water Treatment Plant Property Project Placer County Water Agency --Placer The Fence Monte Vista Water Treatment Plant Property project is proposed by the Agency to increase the size of the Monte Vista Water Treatment Plant property by approximately 0.22 acres through an exchange of properties of equal value with the adjacent property owner, as provided for in Government Code Section 25365. This will allow the Agency sufficient space to construct a vehicle turn around, give the Agency a secure space to park it's existing emergency generator equipment and additional space for possible future water treatment plant modifications and to install a security/safety fence around the site. The vehicle turn around and fencing will be constructed utilizing best management practices.	NOD

	environmental change and to overfishing. Fishing for these species, which has been intense over the last two decades, has not been managed comprehensively. Declines in the abundance of these species and in other fisheries has generated economic and ecological disruption and aggravated competition among commercial and recreational fishermen and other user groups.		
1998012078	Joint Intermodal Terminal Project Oakland, Port of Oakland--Alameda The project, approved on June 15, 1999, is an approximately 170-acre railyard terminal to accommodate projected intermodal container distribution to and from the Port of Oakland's maritime terminals. At the main yard area, the project consists of raising the current ground elevation and repaving the site for development of eight rail lines and associated entrance gate, administrative and maintenance structures, new utility systems, container storage, truck parking and new roadway access. The portion of the site located on the Knight Yard in the former Oakland Army Base may be used for auxiliary railcar storage at full project buildout; this use will require reconfiguration of the existing track layout. The objective of the project is to provide safe, efficient and cost-effective movement of containerized intermodal cargo between the Port of Oakland berths and railcars. The project will provide direct rail access to the Port for railroads with no current access, thereby reducing the transport of cargo over Bay Area roads.	NOD	
1998012078	Joint Intermodal Terminal Project Oakland, Port of Oakland--Alameda The project, approved on June 15, 1999, is a railyard terminal that includes development of eight rail lines and associated entrance gate, administrative and maintenance structures, new utility systems, container storage, truck parking and new roadway access. The JIT project site was to be developed in two phases: JIT Phase I which has been constructed, and Phase 2 which would result in construction of two additional loading tracks. At present the JIT Phase 1 is considered sufficient to fulfill the needs for intermodal services at the Port of Oakland. Until additional JIT loading tracks are needed, the Port is proposing to use portions of the JIT Phase 2 area for maritime-support activities, including construction of three cargo transload facilities.	NOD
